Choose from 4 universes, through a selection of materials and on-trend and warm colours: Terracotta or Twine for your curtains, and Clay or Titanium for your seating.

*The surface areas are calculated based on the UNIVDL definition: "Surface area is defined as the area of the floor. This is calculated using the enclosed and covered gross floor area after subtracting the surface area corresponding to the thickness of the walls in which the exterior door and window frames are located. It must exclude the terrace, gutters and exterior walls."
